Review lecture	
Principles and applications of systems biology in improving efficiency of dairy cattle John P. McNamara - Washington State University	19-31
Amino acids and nitrogen	
1. Investigations on the effect of a niacin supplementation to a diet deficient in ruminally degradable nitrogen on rumen metabolism and nitrogen excretion of lactating dairy cows P. Lebzien, K.-H. Südekum, S. Dänicke – Braunschweig/Bonn	33
2. Influence of sainfoin (<i>Onobrychis viciifolia</i>) cultivars on nitrogen balance of lambs artificially infected with the abomasal nematode <i>Haemonchus contortus</i> B.N. Azuhnw, Y. Arrigo, A. Gutzwiller, H.D. Hess, M. Kreuzer, I. Mueller-Harvey, H. Hertzberg, F. Dohme-Meier – Posieux/Zurich/Reading	34
3. Effects of protein and amino acid supplementation on growth and serum parameters in weaned Warmblood foals C. Krumbiegel, T. Raue, J. Fritz, A. Zeyner, E. Kienzle – Munich/Marbach/Rostock	35
4. Application of principles of diet dilution technique and modelling of N-utilization for estimation of optimal dietary amino acid ratios in growing chicken C. Wecke, J. Farke, F. Liebert – Göttingen	36
5. Effect of protein intake originating either from soybean meal or casein on true ileal lysine digestibility in newly-weaned pigs M. Eklund, N. Sauer, D. Jezierny, M. Goerke, M. Rademacher, R. Mosenthin – Stuttgart-Hohenheim/Hanau	37
6. Standardized ileal amino acid digestibilities in fine and coarse particles of an over-heated soybean meal for grower pigs U. Messerschmidt, M. Eklund, V. T. S. Rist, P. Rosenfelder, H. K. Spindler, J. K. Htoo, R. Mosenthin – Stuttgart-Hohenheim/Hanau	38
7. Impact of tryptophan and valine on the performance of weaned piglets fed a low protein diet K. Büsing, S. Müller, W. Hackl, A. Zeyner - Rostock	39
8. Study on optimum tryptophan to lysine ratio in low protein diets for female fattening pigs K. Schedle, E. Corrent, J. Bartelt – Vienna/Paris/Cuxhaven	40

9.	N balance studies with graded dietary amino acid supply in growing boars of different body weight - Preliminary results	41
	S. Ebschke, C. Otten, S. Müller, F. Liebert, A. Berk – Göttingen/Bad Salzungen/Braunschweig	
10.	N-utilization parameters are modulated when semi-synthetic mixtures with new protein sources are blended with a commercial feed for laboratory rats	42
	A. Pastor, F. Liebert – Göttingen	
11.	The effects of autoclave sterilization of stock diets for laboratory animals on selected indices of protein availability	43
	M. Taciak, A. Tuśnio, M. Barszcz, E. Święch, B. Pastuszewska, J. Skomiał, J. Paradziej-Łukowicz – Jabłonna/Gdańsk	

Environment

12.	Long-term effects of feeding tannin extracts on methane release, digestibility and urinary excretion of purine derivatives in sheep	44
	G. Wischer, A. M. Greiling, J. Boguhn, H. Steingaß, M. Schollenberger, K. Hartung, M. Rodehutscord – Stuttgart-Hohenheim	
13.	The effect of high-sugar ryegrass hay, in comparison with a medium-sugar ryegrass hay and maize silage, on methane emissions and nitrogen excretion of dairy cows	45
	S. M. Staerfl, S. Amelchanka, T. Kälber, C. R. Soliva, M. Kreuzer, J. O. Zeitz – Zurich	
14.	Urinary purine derivative excretion by heifers in response to increasing Quebracho tannin supplementation	46
	S. Ahnert, A. Susenbeth, U. Dickhoefer – Kiel	
15.	Effects of induced drought stress and atmospheric carbon dioxide load on chemical composition of maize plant, its <i>in vitro</i> ruminal fermentation and microbial diversity	47
	B. Meibaum, B. Schröder, H.J. Weigel, R. Manderscheid, G. Breves – Hanover/Braunschweig	
16.	Phytobiotics like blackseed oil, laurel oil and <i>Ferula eleochoytris</i> can modify ruminal fermentation <i>in vitro</i>	48
	K. Deckardt, F. Klevenhusen, A. Muro-Reyes, R. Chizzola, Q. Zebeli – Vienna	

Transport, epithelial and cell physiology

17.	Diets high in fermentable protein influence histamine-induced chloride secretion and the epithelial catabolism of histamine in the colon of weaned piglets	49
	S. Kröger, R. Pieper, H. G. Schwelberger, J. Wang, J. F. Richter, J. Zentek, J. R. Aschenbach, A. G. Van Kessel – Berlin/Innsbruck/Saskatoon	

18. Effects of supplementation with zinc oxide on transport properties in the jejunum of piglets	50
E.-M. Gefeller, H. Martens, J. R. Aschenbach, R. Pieper, S. Klingspor, U. Lodemann – Berlin	
19. Foetal body composition and skeletal muscle properties at mid-gestation in response to maternal low or high protein diets during pregnancy	51
C. Kalbe, L. Lefaucheur, B. Stabenow, K.-P. Brüssow, O. Bellmann, R. Pfuhl, W. Otten, C. C. Metges, C. Rehfeldt – Dummerstorf/Saint Gilles	
20. Beta-hydroxybutyric acid/glucose ratio dependent orexigenic signaling in hypothalamic GT1-7 cells	52
T. Laeger, H. M. Hammon, B. Kuhla – Dummerstorf	
21. Feeding increasing amounts of barley grain affects electrophysiological properties of the rumen epithelium in growing goats	53
F. Klevenhusen, B. Glaser, M. Hollmann, L. Podstatzky-Lichtenstein, J. R. Aschenbach, Q. Zebeli – Vienna/Berlin	
22. Transport of short-chain fatty acids (SCFA) across rumen epithelium by sodium-coupled monocarboxylate transporter 1 (SMCT1)	54
R. Rackwitz, S. Bilk, A. Schmidt-Mähne, F. Dengler, G. Gäbel – Leipzig	
23. Do monocarboxylate transporters (MCT) 1 and 4 play a role in SCFA-transport across ovine rumen epithelium?	55
F. Dengler, R. Rackwitz, G. Gäbel – Leipzig	
24. Pathways for the absorption of ammonia across the bovine ruminal epithelium	56
J. Rosendahl, F. Stumpff, H. Martens, J.R. Aschenbach - Berlin	
25. Initial characterisation of new porcine and bovine intestinal cell lines to be used as <i>in vitro</i> models for functional studies in the area of intestinal physiology	57
K. Becker, P. Steinberg - Hanover	
26. The inner and the outer submucous plexus of porcine colon contain neurones with different neurochemical coding	58
C. Petto, G. Gäbel, H. Pfannkuche - Leipzig	

Minerals

27. Influence of short chain fatty acids and pathologic pH variations on potassium transport across rumen epithelium	59
M. Wagener, S. Leonhard-Marek – Hanover	
28. Influence of high levels of dietary zinc on the expression of zinc transport proteins, metallothionein and DMT 1 in the jejunum of weaned piglets	60
L. Martin, R. Pieper, W. Vahjen, J. Zentek – Berlin	

29. Effects of calcium restriction on the gastrointestinal calcium absorption in sheep in comparison with goats	61
J. Richter, M. Wilkens, N. Mrochen, G. Breves, B. Schröder – Hanover	
30. Effects of different iron, manganese, zinc and copper sources on their bioavailability in weanling piglets	62
M. Rimbach, K. Männer - Pinneberg/Berlin	
31. Experimental investigation on the bioavailability of different magnesium compounds in weaned piglets	63
V. S. Aichner, B. R. Paulicks, W. Windisch - Freising-Weihenstephan	
32. Comparison of two types of basal diet for assessing the P availability of mineral P sources in broilers	64
Y. Shastak, M. Witzig, M. Schollenberger, M. Rodehutscord – Stuttgart-Hohenheim	
33. Effect of a deficient and an adequate selenium supply on pancreatic carcinogenesis in a Kras-driven mouse model	65
M. Tost, M. Aichler, I. Esposito, M. Brielmeier - Hanover/Munich	

Undesirable Substances

34. Effects of a deoxynivalenol (DON) contaminated wheat on feed intake and health status in horses	66
A. Schulz, S. Döll, S. Dänicke, M. Coenen, I. Vervuert – Leipzig/ Braunschweig	
35. Time dependent effects of graded levels of <i>Fusarium</i> toxin contaminated maize grain on performance and development of hyperestrogenism in female piglets	67
I. Rempe, U. Brezina, S. Döll, J. Spilke, S. Dänicke – Braunschweig/Halle	
36. Investigations on the degradation of pyrrolizidine alkaloids in Eastern Groundsel (<i>Senecio vernalis</i>) during ensilage	68
S. Ronczka, R. Pieper, U. Korn, J. Zentek, K. Speer, B. Pieper - Dresden/ Berlin/Wuthenow	
37. Effect of increasing concentrations of deoxynivalenol (DON) in the diet on egg quality and health of laying hens of different genetic background	69
M. Ebrahem, S. Döll, S. Dänicke - Braunschweig	
38. Effects of the flavonol quercetin on the toxicokinetics of the mycotoxin ochratoxin A in rats	70
R. Blank, Z. Abbas, S. Wein, S. Wolffram - Kiel	

Fatty acids

39. Milk fatty acid profile in dairy cows during early lactation, during an energy restriction at 100 DIM, and a following realimentation	71
J.J. Groß, H. A. van Dorland, R.M. Bruckmaier, F.J. Schwarz – Bern/ Freising- Weihenstephan	

40. Influence of dietary precursor fatty acid concentrations on linolenic and vaccenic acid concentrations in cow's milk: a meta-analysis	72
R. Khiaosa-ard Siepmann, M. Kreuzer, F. Leiber – Zurich	
41. Localization of the mineralocorticoid receptor in different fat depots of dairy cows supplemented with CLA	73
K. Friedauer, D. von Soosten, S. Dänicke, H. Sauerwein, S. Häußler – Bonn/Braunschweig	
42. Peroxisome proliferator-activated receptor gamma2 (PPARγ2) mRNA is related to body fat content of dairy cows and is decreased by CLA treatment in the mammary gland	74
B. Saremi, H. Sauerwein, D. von Soosten, S. Dänicke, M. Mielenz – Bonn/Braunschweig	
43. Effects of long term supplementation of dairy cow rations with conjugated linoleic acids on proliferation of peripheral blood mononuclear cells and their fatty acid profile	75
L. Renner, J. Papritz, R. Kramer, S. Döll, G. Jahreis, S. Dänicke – Braunschweig/Jena	
44. Response of hepatic genes involved in lipid metabolism to supplementation with rumen-protected conjugated linoleic acids in dairy cows	76
R. Ringseis, G. Schlegel, W. Windisch, F.J. Schwarz, K. Eder – Gießen/Freising	
45. Effects of rumen-protected conjugated linoleic acids (CLA) and dietary concentrate proportion on blood parameters of periparturient dairy cows	77
M. Petzold, U. Meyer, S. Döll, S. Dänicke - Braunschweig	
46. Concentrations of α-tocopherol and β-carotene in the milk of cows supplemented with conjugated linoleic acids	78
G. Schlegel, K. Kupczyk, E. Most, F.J. Schwarz, R. Ringseis, K. Eder – Gießen/Freising	
47. Leptin and leptin receptor mRNA abundance in liver and subcutaneous adipose tissue throughout lactation in dairy cows supplemented with conjugated linoleic acids	79
P. Friedrichs, S. Winand, H. Sauerwein, J. Papritz, S. Dänicke, M. Mielenz - Bonn/Braunschweig	

Energy

48. Influence of energy supply pre- and postpartum on performance and metabolic parameters in dairy cows	80
M. Urdl, L. Gruber, W. Obritzhauser - Irdning/Parschlug	
49. Variation of energy intake during lactation: Effects on dry matter intake and performance	81
S. Remppis, H. Steingaß, L. Gruber, H. Schenkel – Stuttgart-Hohenheim/Irdning	

50.	Effects of a short-term feed restriction during early lactation on milk production and metabolic parameters of dairy cows differing in milk yield and milk protein concentration	82
	K. Gellrich, T. Sigl, H.H.D. Meyer, M. Kaske, S. Wiedemann – Freising/Hanover/Kiel	
51.	Body composition of Simmental cows and the relation of fat content to body condition parameters	83
	M. Steyer, T. Ettle, H. Spiekers, M. Rodehutscord - Poing-Grub/Stuttgart-Hohenheim	
52.	Liver fat content and lipid metabolism in dairy cows during early lactation, and during an energy restriction at 100 DIM	84
	J.J. Groß, H. A. van Dorland, K. Eder, F.J. Schwarz, R.M. Bruckmaier – Bern/Gießen/Freising-Weihenstephan	
53.	Expression of genes involved in carnitine metabolism in the liver of dairy cows in the transition period and in lactation	85
	G. Schlegel, J. Keller, F. Hirche, S. Geißler, F.J. Schwarz, R. Ringseis, G. I. Stangl, K. Eder – Gießen/Halle/Freising	
54.	Metabolic responses in lactating dairy cows to an infusion with DL-beta-hydroxybutyrate for 48 hours	86
	H.A. van Dorland, M. Zarrin, M.C.M.B. Vernay, O. Wellnitz, R.M. Bruckmaier – Bern/Yasouj	
55.	Changes of carbon isotope ratio of milk fat during lactation as an indicator of tissue fat mobilization in cows	87
	M. Holstermann, J. Molkentin, R. Blank, A. Susenbeth - Kiel	
56.	Impact of plane of maternal nutrition and intensity of postnatal feeding on pancreatic and peripheral insulin response and subsequent growth of heifer Holstein calves	88
	U. Köhler, S. Spiegler, F. J. Schwarz, G. Sigl, S. Wiedemann, H. H. D. Meyer, M. Kaske - Hanover/Munich/Kiel	
57.	Effects of ad libitum feeding of Holstein bull calves within the first three weeks of life on health status and subsequent performance	89
	P. Maccari, H.-J. Kunz, P. Sanftleben, M. Piechotta, M. Kaske – Hanover/Futterkamp/Dummerstorf	
58.	Influence of salinity on energy metabolism in juvenile turbot (<i>Psetta maxima</i>)	90
	C. Dietz, K. T. Stiller, C. Schulz, A. Susenbeth - Kiel	
59.	Fat partitioning in mature Simmental cows	91
	M. Steyer, T. Ettle, H. Spiekers, M. Rodehutscord - Poing-Grub/Stuttgart-Hohenheim	
60.	High yielding dairy cows with a high liver fat content in early lactation respond with increasing plasma ghrelin concentrations during feed deprivation	92
	S. Börner, M. Derno, M. Röntgen, H. M. Hammon, B. Kuhla - Dummerstorf	

61. mRNA expression of hepatic receptors and transcription factors regulating lipid metabolism in periparturient dairy cows with different body fat mobilization	93
C. Schäff, H. M. Hammon, M. Röntgen, B. Kuhla – Dummerstorf	
62. mRNA abundance of mammary GLUT1 and GLUT4 in response to long-term manipulated plasma concentrations of insulin and glucose in lactating dairy cows	94
J.J. Groß, L. Kreipe, M.C.M.B. Vernay, O. Wellnitz, H.A. van Dorland, R.M. Bruckmaier - Bern	
63. Pancreatic and peripheral insulin response in high-yielding dairy cows with different fat mobilisation during early lactation	95
U. Kautzsch, B. Kuhla, M. Röntgen, S. Görs, B. Losand, R. M. Bruckmaier, C. C. Metges, H. M. Hammon - Dummerstorf/Bern	
64. Nutrient flow and its relation to milk production in F₂ offspring of Charolais × Holstein crosses as measured by ¹³C enrichment in milk components during C₃ and C₄ plant feeding	96
H. Hillal, C. C. Metges, H. M. Hammon - Dummerstorf	
65. Development of hepatic α₁- and β₂-adrenoceptors in neonatal calves	97
D. Rohrbeck, J. Steinhoff-Wagner, H. M. Hammon - Dummerstorf	
66. Effects of 3 weeks feed restriction on fat and carbohydrate oxidation during restriction and realimentation in growing pigs: preliminary results	98
R. Krüger, M. Derno, B. U. Metzler-Zebeli, S. Görs, K. Giggel, C. Schmelzer, H. M. Hammon, C. C. Metges - Dummerstorf	

Digestion

67. In situ ruminal degradation of crude protein and amino acids and <i>in vitro</i> protein digestibility of undegraded protein in DDGS	99
E. Westreicher, H. Steingaß, M. Rodehutscord - Stuttgart-Hohenheim	
68. Risk factors of diet-induced systemic inflammation in cattle: a meta-analysis	100
Q. Zebeli, B.N. Ametaj - Wien/Edmonton	
69. Particle size reduction at low and high food intake, and influence of chewing on particle breakdown in rabbits	101
E. Findeisen, J. Hummel, K.-H. Südekum - Bonn	
70. Aspects of clinical relevance in feeding degus: capacity of crude fibre digestion and basic data on calcium metabolism in comparison to dwarf rabbits	102
D. Hommel, P. Wolf, J. Kamphues - Hanover	
71. Effects of feed structure (grinding type and intensity, processing) on nutrient digestibility and performance in weaned piglets	103
M. Arlinghaus, J. Bullermann, S. J. Sander, J. Kamphues - Hanover	

72. Enlargement (weight and length) of the small and large intestine of young pigs due to reduced prececal digestibility - a response to enhanced microbial activity?	104
A. Möbeler, T. Schwarzmaier, P.-C. Gregory, J. Grunemann, J. Kamphues - Hanover	
73. Effects of tannin and activated charcoal on the digestibility and nutrient excretion of goats under subtropical conditions (Oman)	105
A. Alkindi, E. Schlecht, A. Schiborra - Kassel-Witzenhausen/Göttingen	
74. Influence of addition of chopped straw, chopped hay or chopped alfalfa to concentrates on duration of feed intake and chewing intensity of horses	106
G. Schlegel, B. Keimer, K. Eder – Gießen	
75. Comparative application of acid insoluble ash (AIA) and hexatriacontane (C36) as digestibility markers in horses - first results of a balance study	107
D. Koslowski, I. Vervuert, F. Liebert – Göttingen/Leipzig	
76. Ultrasonographic imaging of abomasal milk clotting in calves on different diets	108
D. Kirchner, L. Schwedhelm, M. Coenen, L. Bachmann – Leipzig	
77. Effects of rumen protected fats and fatty acids on the ruminal bacterial microbiome under physiologic and acidotic conditions in the RUSITEC system	109
P. Janczyk, A. Reichtanz, K. Büsing, W.B. Souffrant, R. Adelmann, A. Zeyner – Rostock/Hamburg	
78. Effects of varying starch and fiber contents in the diet on digestive processes in the cecum of rabbits	110
K. Südmersen, P. Wolf, J. Kamphues – Hanover	
79. Effect of inclusion of essential oil and β-glucanase in barley-based diets on precaecal nutrients digestibility in broiler chicks	111
D. Ghofrani Tabari, M. R. Rezvani – Shiraz	
80. Apparent digestibility of crude nutrients of raw and cooked rations, with or without cereals, in adult Beagle dogs	112
S. Handl, J. Illi, C. Iben - Vienna	

Feed additives

81. Bioavailability of the flavonol quercetin in cows	113
L. M. Berger, S. Wein, R. Blank, C. C. Metges, S. Wolffram - Kiel/Dummerstorf	
82. Antioxidant effects of herbal feed supplements in broilers	114
Y. Loetscher, M. Kreuzer, R. Messikommer - Zurich	
83. Effects of broccoli extract and essential oils on xenobiotic enzymes in the intestine of piglets	115
K. Mueller, N. M. Blum, H. Kluge, K. Wendler, A. S. Mueller - Halle (Saale)/Steyregg	

84. Effects of feeding the probiotic bacterium <i>Enterococcus faecium</i> NCIMB 10415 under production conditions on immune status and virus shedding in german landrace piglets	116
S. Kreuzer, P. Machnowska, J. Assmus, M. Sieber, R. Pieper, M.F. Schmidt, G. Brockmann, L. Tedin, R. Johne – Berlin	
85. Comparison of massive oral dosing of a probiotic <i>Enterococcus faecium</i> with ingestion of sow feces on probiotic cell number, lactic acid bacteria and bacterial metabolites in piglets	117
I. Starke, W. Vahjen, J. Zentek - Berlin	
86. Effect of niacin supplementation on muscle fiber composition and fatty acid oxidation capacity of skeletal muscle of obese rats	118
R. Ringseis, S. Rosenbaum, L. Herges, F. C. Mooren, K. Krüger, K. Eder - Gießen	
87. Effects of flavonoids on the metabolic status in newborn dairy calves: Preliminary results	119
J. Flor, S. Wolffram, H. M. Hammon – Dummerstorf/Kiel	
88. Does inactivated yeast affect rumen dry matter degradability in low concentrate diet?	120
A. E. Metwally, C. Fahn, W. Windisch - Freising-Weihenstephan	
89. Effect of exogenous phytase on the phosphorus metabolism of lactating cows fed a maize based diet	121
L. Winter, U. Meyer, M. Spolders, P. Lebzien, S. Dänicke - Braunschweig	
90. Impact of a chemical or biological silage additive and their combination on the fermentation quality of grass silage	122
R. Söffing, S. Hoedtke, B. Pieper, A. Zeyner - Rostock/Wuthenow	
91. Formation of biogenic amines in grass silages when a chemical or biological silage additive or a combination of both is used	123
S. Hoedtke, R. Söffing, B. Pieper, A. Zeyner - Rostock/Wuthenow	
92. Precipitation ability of quebracho extract for different BSA concentrations	124
M. Schweigmann, H. Harder, F. Taube, M. Gierus - Kiel	
93. Protein precipitation ability of different tannin extracts at variable pH values <i>in vitro</i>	125
M. Schweigmann, F. Taube, M. Gierus - Kiel	
94. The effects of L-carnitine supplementation on metabolic profile in obese ponies during a several weeks lasting bodyweight reduction programme	126
U. Schmengler, J. Ungru, A. Schulz, M. Aycke-Thun, E. von Heimendahl, R. Boston, M. Coenen, I. Vervuert - Leipzig/Cuxhaven/Kennett Square	
95. Influence of dietary zinc supplementation on intestinal barrier function in weaned piglets	127
S. S. Zakrzewski, J. F. Richter, J. D. Schulzke, M. Fromm – Berlin	
96. Effect of the former antibiotic feed additive Avilamycin or essential oils on the expression of genes related to oxidative defense, detoxification and growth in liver of piglets	128
C. Becker, S. Donaubauer, W. Windisch – Freising	

97.	Bioavailability of duodenal administered flavonoids and acute effects on milk yield in high-yielding German-Holstein cows - Preliminary results	129
	A. Gohlke, C.J. Ingelmann, G. Nürnberg, S. Wolffram, C.C. Metges – Dummerstorf/Kiel	
98.	Influence of fatty acid pattern on intestinal quercetin absorption via the thoracic lymph duct in rats	130
	K. Murota, S. Wolffram, J. Terao, R. Cermak - Osaka/Kiel/Leipzig	
99.	Effects of a phytogenic feed additive in sow diets on performance of sows and piglets	131
	M. Goerke, K. R. Wendler, K. Männer - Steyregg/Berlin	
100.	Effect of <i>Bacillus cereus</i> var. <i>Toyoii</i> on shedding and translocation of <i>Salmonella Typhimurium DT104</i> and the immune response in weaned piglets	132
	L. Scharek-Tedin, R. Pieper, W. Vahjen, J. Zentek – Berlin	
101.	Influence of different levels of dietary zinc on hepatic proteomic profiles in weaned piglets	133
	A. Bondzio, R. Pieper, C. Weise, C. Gabler, P. Schulze, J. Zentek, R. Einspanier - Berlin	
102.	Effects of probiotic strains of <i>Enterococcus faecium</i> and <i>Lactobacillus rhamnosus</i> on diarrhoea patterns and the faecal microbiome of sucking foals	134
	E. Günther, C. Ströbel, K. Romanowski, V. Urubschurov, K. Büsing, W.B. Souffrant, E. Kienzle, A. Zeyner - Rostock/Munich	
103.	Effects of 25-hydroxyvitamin D₃ and/or phytase supplementation to the diet of laying hens in an early stage of laying on the expression of calcium transport proteins in the duodenum	135
	J. Stahl, G. Herm, M. Wilkens, B. Schröder, G. Weber, G. Breves – Hanover	
104.	Gender-specific effect of a phytogenic feed additive on the intestinal physiology in broilers	136
	E. Rohrer, E. Humer, W. Windisch, K. Schedle – Wien/Freising	
105.	<i>Enterococcus faecium</i> NCIMB 10415 does not protect interleukin-10 knock-out mice from chronic gut inflammation	137
	B. Priya Ganesh, M. Blaut, G. Loh – Nuthetal	
106.	Effect of dietary β-galacto-oligosaccharides supplementation on growth performance, cecal microbial population and immune response in broilers	138
	H. Rehman, M. S. Yousaf, N. Fatima, A. Ijaz – Lahore	

Feedstuff evaluation and feeding

107.	Does the physical form of diets - based on identical ingredients and chemical composition - affect foot pad health in broilers?	139
	A. Abd El-Wahab, M. Witte, B. Üffing, M. Tost, J. Kamphues – Hanover	
108.	Effects of diets physical form and preparation (grinding type/intensity, processing) on the gastrointestinal tract, digestibility of nutrients and feed conversion ratio (FCR) in broilers	140
	M. Witte, B. Üffing, S. J. Sander, M. Tost, J. Kamphues – Hanover	

109. Effect of rotational or continuous grazing on feed intake and live weight gain of sheep in the steppe of Inner Mongolia	141
J. Hao, B. Bösing, U. Dickhoefer, A. Susenbeth – Kiel	
110. Impact of concentrate supplementation on feed intake and live weight gain of sheep grazing in the Inner Mongolian steppe	142
J. Hao, M. Ohm, U. Dickhoefer, A. Susenbeth – Kiel	
111. Effect of supplemental cellulose in the basal diet of broilers on the precaecal amino acid digestibility of test ingredients determined by regression analysis	143
H. Kluth, M. Petzold, C. Georgi - Halle (Saale)	
112. Estimating ruminal crude protein degradation of forages using in situ and in vitro techniques	144
B. Edmunds, K.-H. Südekum, H. Spiekers, F. J. Schwarz - Bonn/Poing-Grub/Freising	
113. Effects of increasing levels of alfalfa silage in diets for fattening bulls	145
T. Ettle, M. Steyer, A. Obermaier, H. Spiekers, S. Weinfurtner - Poing-Grub	
114. Fresh and preserved green fodder modify effects of urinary acidifiers on urine pH of horses	146
G. Goren, J. Fritz, N. Dillitzer, E. Kienzle - Munich	
115. Grazing effects on the nutritive value and nutritional yields of forage in Inner Mongolian grassland	147
H. Ren, H. Wan, P. Schönbach, M. Gierus, F. Taube – Kiel	
116. Grazing-induced patches in the Inner Mongolia steppe as affected by grazing intensity and management system	148
M. Ohm, P. Schönbach, M. Gierus, H. Wan, B. Bösing, F. Taube – Kiel	
117. Grazing system as factor influencing fattening performance and meat quality of sheep from two breeds grazing different alpine vegetation types	149
H. Willems, C. Werder, M. Kreuzer, F. Leiber – Zurich/Lätti	
118. Effect of diet diversity on intake of leaves from woody plants in dairy sheep	150
J. S. Meier, A. Liesegang, M. Kreuzer, S. Marquardt – Zurich	
119. Crude protein fractions of fresh, wilted and ensiled red clover	151
M. Krawutschke, N. Weiher, J. Thaysen, F. Taube, M. Gierus – Kiel/Rendsburg	
120. Effect of drying procedure on crude protein fractions of red clover and relationship with the specific polyphenol oxidase activity	152
N. Weiher, M. Krawutschke, F. Taube, M. Gierus – Kiel	
121. Effect of a mixture of lactic acid bacteria on the amount of protein degradation in grass silages of different raw material	153
E. Kramer, P. Leberl, C. Kalzendorf – Pinneberg/Stuttgart/Oldenburg	
122. Nutritional and ecological aspects of dairy feeding systems under semi-arid environments in Jordan	154
O. Alqaisi, T. Hemme, M. Hagemann, A. Susenbeth - Kiel	
123. Performance of yaks (<i>Bos grunniens</i>) on high altitude alpine pastures in Eastern Nepal	155
S.R. Barsila, N.R. Devkota, F. Leiber, M. Kreuzer, S. Marquardt – Zurich	

124.	Nutritional composition, microscopical and microbiological assessment of grass and alfalfa hay from European zoos	156
	P. Leberl, M. Clauss, W. Wagner – Stuttgart-Hohenheim/Zurich/Karlsruhe	
125.	Heart rate and heart rate variability in horses on pasture: short-term effect of putting out on grass and long-term effect of adaptation to the new surrounding	157
	A. Becker, A. Orgis, K. Romanowski, J. Langbein, E. Mohr, J. Müller, A. Zeyner - Rostock/Dummerstorf	
126.	Parallel measurements of feed intake rate and chewing activity as well as heart rate and heart rate variability in horses consuming an oats-barley mix, meadow hay and meadow grass in their most familiar surroundings	158
	A. Orgis, A. Becker, K. Romanowski, J. Langbein, S. Quellmalz, E. Mohr, J. Müller, A. Zeyner - Rostock/Dummerstorf/Leipzig	
127.	Effects of corn silage of a Brown-midrib hybrid on dry matter intake, milk yield and milk composition in German Holstein dairy cows compared to a common hybrid	159
	T. Gorniak, U. Meyer, S. Dänicke - Braunschweig	
128.	Ceacal response of turkey fed diet diluted with whole grain wheat	160
	J. Jankowski, Z. Zdunczyk, J. Juskiewicz, D. Mikulski - Olsztyn	
129.	Influence of different feed treatments on feed intake, body weight gain and feed conversion rate in growing chicken	161
	C. Wecke, H. von Reichenbach, F. Liebert – Göttingen/Reinbek	
130.	Do grinding intensity and physical form of diets have an influence on <i>in vitro</i> adhesion of <i>Salmonella Typhimurium</i> and on the occurrence of mannose residues in the mucus as receptors for Salmonellae in the porcine ileum and caecum?	162
	A. Callies, S. J. Sander, J. Verspohl, A. Beineke, J. Kamphues- Hanover	
131.	Effects of different physical forms of the diet on the microflora in the gastrointestinal tract of broiler chickens	163
	B. Üffing, M. Witte, M. Tost, S. J. Sander, J. Verspohl, J. Kamphues – Hanover	
132.	Does the physical form of diets predispose broilers for developing proventricular dilatation?	164
	M. Witte, B. Üffing, Monica Tost, A. Beineke, J. Kamphues – Hanover	
133.	Effects of feed structure (grinding type and intensity, processing) on microbial populations in the gastrointestinal tract of young pigs	165
	J. Bullermann, M. Arlinghaus, S. J. Sander, J. Verspohl, J. Kamphues - Hanover	
134.	Meta-analysis of various studies dealing with effects of feed particle size on alterations of the pars nonglandularis in the porcine stomach	166
	S. J. Sander, J. Kamphues – Hanover	
135.	Earthworms as a potential source of animal protein for aquafeeds for common carp	167
	N.N. Tuan, U. Focken – Stuttgart-Hohenheim/Hanoi/Ahrensburg	
136.	The effects of composition and autoclave sterilization of diets for laboratory animals on pellet hardness and growth performance of mice	168
	M. Barszcz, A. Tuśnio, M. Taciak, B. Pastuszewska, J. Skomiał - Jabłonna
