

# 16<sup>th</sup> International Congress of Nutrition

## Proceedings

**“From Nutritional Science to Nutrition Practice for  
Better Global Health”**

### **Sponsored by**

National Research Council  
Canada  
Agriculture Institute of Canada  
Canadian Institute of Food  
Science and Technology  
Canadian Society for Nutritional  
Sciences  
Dietitians of Canada

### **Under the auspices of**

The International Union of  
Nutritional Sciences

UB/TIB Hannover  
120 047 888

89

# Contents

<b>Preface</b>	IX
<b>Plenary Lectures</b>	
Diet and Coronary Heart Disease W.C. WILLETT.....	1
Micronutrient Malnutrition: Is It Being Eliminated? BARBARA A. UNDERWOOD.....	4
Stable Isotopes in Nutrition Research: From Metabolic Unit to Field Studies A.M. PRENTICE.....	7
Food Security in the 21st Century: Any Hope for Africa? J.T. TAGWIREYI.....	10
<b>Nutrition in Exercise: Gender Differences in Metabolism Important to Nutrition Practice</b>	
Gender Differences in Metabolism - Nutritional Implications: Carbohydrate Loading, Caffeine and Creatine Monohydrate M.A. TARNOPOLSKY.....	13
Protein Metabolism and Requirements in Male and Female Athletes: Potential Gender Differences S.M. PHILLIPS.....	16
Physical Activity and Body Composition: A Gender Difference KLAAS R. WESTERTERP.....	19
Gender Differences in Fuel Utilization at High Altitude G.E. BUTTERFIELD, G.A. BROOKS, B. BRAUN, L.G. MOORE, E. WOLFE AND J.T. REEVES....	21
<b>Vitamins, Lipids and Atherosclerosis</b>	
Total Plasma Homocysteine and Vitamin Status JACOB SELHUB, P.F. JACQUES, A.G. BOSTOM AND I.H. ROSENBERG.....	24
Plasma Total Homocysteine and Cardiovascular Disease: An Up-Date P.M. UELAND, H. REFSUM, O. NYGÅRD AND S.E. VOLLSET.....	27
Antioxidants, Polyunsaturated Fatty Acids and Modification of Lipoproteins C.A. DREVON.....	33
<b>Diet and Diabetes: Incidence and Progression</b>	
Caloric Restriction vs. Exercise: Which Is More Effective in Preventing NIDDM in Diabetes-prone Rats? K. SHIMA.....	36
Recent Progress in Understanding the Genetic Component to Diabetes N.J. COX.....	38
Modulation of Gastrointestinal Incretin Hormones with Dietary Fiber and the Management of Non-Insulin Dependent Diabetes Mellitus M.I. McBURNEY.....	40
Diet and Development of Insulin-Dependent Diabetes Mellitus From Food Antigens to Antioxidants J.M. NORRIS.....	42
<b>Towards Optimal Nutrition for Infants</b>	
Optimal Duration of Exclusive Breast-Feeding K.G. DEWEY.....	45
Can Infant Formula Be Made More Similar to Human Milk? B. KOLETZKO.....	48
Effect of Iron Deficiency Anemia on Cognition and Neuro-Maturation in Infancy and Childhood T. WALTER, M. RONCAGLIOLO, I. DE ANDRACA, P. PEIRANO AND B. LOZOFF.....	51

## **Challenges and Solutions to Providing Nutrition Education to Professionals and the Community**

Communicating Nutritional Knowledge with the Poor to Improve Health in the Context of Developing Countries SUTTILAK SMITASIRI.....	54
Developments in Educational Technology for Professionals and the Public, Applied to Nutrition Education M.S. WESTERTERP-PLANTENGA, M.M.A. VALCKE, P.A. KIRSCHNER, A. ALGERS, K.I. ALDEN AND C.K. LEACH.....	57
Nutrition Education Targeted to Children C.M. PATTERSON.....	60
An Innovative Approach to Introducing Nutrition Education Into The Medical School Curriculum S.H. ZEISEL.....	63
Advanced Training of Nutritionists: The Experiences with the European Nutrition Leadership Program JOSEPH G.A.J. HAUTVAST.....	66
<b>Ecological and Cultural Factors Affecting Programming for Nutrition</b>	
Ecological and Cultural Factors in the Nutritional Sector of Public Health Programs G.H. PELTO AND JOSE MARTINES.....	69
Ecological, Social and Cultural Factors in Nutrition Communication and Behavior Change ELENA HURTADO.....	72
Influencing the Nutrition Dimensions of Agricultural Policy and Project Design: The Ecology and Culture of Institutions and Professions as Determinants WENCHE BARTH EIDE.....	74
Ecological, Social and Institutional Influences on Nutrition Policy D.L. PELLETIER.....	77
<b>Food Hypersensitivity</b>	
Overview and Immunopathogenetic Basis of Food Allergy RANJIT KUMAR CHANDRA.....	81
Symptoms of Food Allergy Y. VANDENPLAS.....	83
Food Hypersensitivity: Diagnosis W.T.A. WATSON.....	85
Strategies for the Prevention of Cow's Milk Protein Allergy and/or Later Atopic Disease Y. VANDENPLAS.....	87
<b>Complementary Feeding in Developing Countries</b>	
Appropriate Energy Density and Frequency of Feeding of Complementary Foods for Young Children in Low-Income Countries KENNETH H. BROWN.....	90
Home, Village and Central Processing of Complementary Foods: Results of a Pilot Intervention Trial in Ghana A. LARTEY, A. MANU, K.H. BROWN AND K.G. DEWEY.....	93
Complementary Feeding in Developing Countries: Design, Implementation, Evaluation, and Results of Intervention Programs J.A. RIVERA, M.C. SANTIZO AND E. HURTADO.....	96
Nutrient Content, Density and Bioavailability of Complementary Foods in Sub-Saharan Africa R.S. GIBSON, C. HOTZ, J. LEHRFELD AND E.L. FERGUSON.....	99
Complementary Feeding in Developing Countries: The Role of Viscosity and Other Organoleptic Factors A. ASHWORTH.....	102

## **Nutrition and Active Longevity**

Reality of Living to Old Age: Perspectives from the Developing World M. MAZARIEGOS AND N.W. SOLOMONS.....	105
Dietary Zinc and the Aging of Neuro-Immune Networks N. FABRIS .....	108
Nutritional and Environmental Influences on Risk for Cataract ALLEN TAYLOR.....	111
Relation of Dietary Energy to Active Longevity E.J. MASORO.....	116

## **Advances in the Biology of Leptin and its Implications for Obesity**

OB Protein: A Link Between Adiposity and Central Neural Networks L.A. CAMPFIELD, F.J. SMITH AND P. BURN .....	118
Nutritional and Hormonal Regulation of the Leptin System P. TRAYHURN, N. HOGGARD, S.E. MITCHELL AND D.V. RAYNER.....	121
The Physiology of Leptin in Normal Weight and Obese Humans ROBERT V. CONSIDINE.....	124
Leptin, Obesity and Diabetes G.R. COLLIER.....	127

## **Starch, Dietary Fibre and Energy Supply**

Starchy Foods: A World-Wide Context NANCY J. POLLOCK.....	129
Effects of Dietary Non-Starch Polysaccharides (NSP) and Resistant Starch (RS) on Crypt Cell Proliferation and Apoptosis: Consequences for Tissue Energy Needs J.C. MATHERS.....	132
Effect on Energy Supply of Diets High in Starch and Dietary Fiber - the Human Perspective A.M. STEPHEN.....	134
Undigested Food and the Colon: International Comparisons of Substrate Supply J.G. MUIR, K.Z. WALKER, M. CAMERON, M. KAIMAKAIMIS, M.J.A.P. GOVERS, Z.X. LU, G.P. YOUNG AND K. O'DEA.....	139

## **Nutritional Support for Low Birth Weight Infants: A Global Perspective**

Long Chain Lipids in Infant Nutrition – Controversies A. LUCAS.....	142
The Use of Fortified Human Milk in Premature Infants R.J. SCHANLER.....	143
Growth and Body Composition in Premature Infants to One Year of Corrected Age in Relation to Diet, Steroid Therapy and Bronchopulmonary Dysplasia STEPHANIE A. ATKINSON.....	148
Novel Approaches to Evaluating Growth in Premature Infants T. J. COLE AND A. LUCAS.....	151

## **Scientific Challenges to International Harmonization of Nutrient**

### **Recommendations**

Setting Nutritional Criteria of Adequacy: From Deficiency Disease to Chronic Disease W.P.T. JAMES AND A. RALPH.....	154
Nutritional Adaptation (Genetic, Physiological and Behavioral): Implications for Requirements V.R. YOUNG AND S. BORGONHA.....	157
From Experiment to Reality – Accounting for Body Size, Dietary Patterns, and Environmental Factors J.C. KING.....	161
What Nutrient Values Should be Estimated and Why? GEORGE H. BEATON.....	164

## **Women's Health and Nutrition**

Role of Women in Promoting Community Nutrition RAJAMMAL P. DEVADAS.....	168
Nutrition Issues For Women in Developing Countries SUSAN P. WALKER.....	170
Barriers to Improving Women's Nutritional Status R.K. ONIANG'O.....	173
Redefining Folate Requirements for Women N.T. GLANVILLE.....	176

## **Functional Foods**

Nutrition, Cytokines and the Immune System M.W. PARIZA.....	179
Colonic Microflora and Intestinal Function I.R. ROWLAND, C.J. RUMNEY AND B.L. POOL-ZOBEL.....	181
Perspective of a Food Technologist F. M. CLYDESDALE.....	183

## **Role of Animal Products in Human Nutrition**

Role of Animal Products in Human Nutrition: An Introduction X. ZHAO AND E. BLOCK.....	185
Role of Animal Products in Human Nutrition J. LEIBETSEDER.....	187
The Biological Potential for Altering Animal Products J.J. KENNELLY AND D.R. GLIMM.....	189
Quality Control and Safety of Animal Products MARGARET ANN MILLER.....	192

## **Multiple Micronutrient Fortifications: Challenges for Government, Industry and the Consumer**

Enhancing Industry - Government Co-operation for Food Fortification G.F. MABERLY.....	195
Multiple Micronutrient Fortification - Challenges for Government, Industry and the Consumer - Implementation: Projects to Sustainable National Programs C.S. PANDAV.....	198
Triple Fortification of Instant Noodles in Thailand: Accomplishments and Constraints V.CHAVASIT AND K.TONTISIRIN.....	201

## **Enduring and Emerging Paradigms in Urban Nutrition**

Enduring and Emerging Paradigms in Urban Nutrition: An Introduction M. RUZ AND N.W. SOLOMONS.....	203
Micronutrient Deficiencies in Vulnerable Urban Groups: Examples from Dhaka F. AHMED.....	205
The Ethnography and Microbiological Safety of Street Vendor Foods in Guatemala City, Jakarta and Hanoi E. FREESE, J. VAN KAMPEN, N.W. SOLOMONS AND R. GROSS.....	208
Growth Attainment and Micronutrient Status in Urban Southeast Asia W. SCHULTINK AND R. GROSS.....	211

<b>Genetic and Nutrition Determinants of Bone Health Across the Life Cycle</b>	
Significance of Habitual Calcium and Vitamin D Intakes to Postmenopausal Risk of Osteoporosis B. DAWSON-HUGHES.....	213
Calcium Needs and Bone Metabolism in Pregnancy and Lactation A. PRENTICE.....	216
Calcium Nutrition and Bone Accretion during Childhood and Adolescence: Immediate and Long-Term Significance WARREN T.K. LEE.....	219
Genetics of Osteoporosis: At the Interface between Genetics and Nutrition D.E.C. COLE, G.A. HAWKER, V.D. PELTEKOVA AND L.A. RUBIN.....	222
<b>Dietary Antioxidants, Oxidative Stress and Diseases</b>	
Nutrition and the Degenerative Diseases of Aging BRUCE N. AMES.....	225
Enhancement of Tissue Glutathione for Antioxidant and Immune Functions T.M. BRAY, C.G. TAYLOR AND M.A. LEVY.....	228
Vitamin E, Gene Expression and Heart Disease ALVIN C. CHAN.....	231
Potential Antioxidant and Pro-oxidant Actions of Food Additives O.I. ARUOMA.....	234
<b>Fish and Shell Fish Nutrition</b>	
Recent Approaches in Finfish Broodstock Nutrition: Reproductive Performance of Yellowtail T. WATANABE AND V. KIRON.....	236
Nutrition and Health of Finfish S.P. LALL.....	238
Fish Nutrition and Product Quality Ø. LIE.....	241
Nutrition and Hormonal Action in Growth and Reproduction of Fish S.J. KAUSHIK.....	244
Critical Evaluation of Current Data on the Nutrient Requirements of Fish and Crustacea D.M. GATLIN III.....	247
<b>Health Benefits of Functional Foods</b>	
Myco-Protein as a Functional Food: Effects on Lipemia, Glycemia and Appetite Variables W.H. TURNBULL.....	249
Flaxseed and Soybeans as Functional Foods LILIAN U. THOMPSON.....	252
Dairy Products with Lactobacillus Acidophilus S. E. GILLILAND.....	255
Mineral Water and Health M.J. ARNAUD.....	258
<b>The Nutrition Transition in Low Income Countries: An Emerging Crisis</b>	
Emerging Trends in the Nutrition Transition B.M. POPKIN AND A. DREWNOWSKI.....	261
Changing Nature of Nutritional Disorders in the Developing Countries: The Case of Brazil C.A. MONTEIRO AND L. MONDINI.....	263
Diet and Nutritional Trends in Mexico CLAUDIA P. SÁNCHEZ-CASTILLO, JOSÉ J. LARA AND W. PHILIP T. JAMES.....	266
The Nutrition Transition in the Republic of South Africa L. T. BOURNE AND A. R. P. WALKER.....	268

## **Nutrition, Immunity and Infection**

Nutrition, Immunity and Infection: An Introduction RANJIT KUMAR CHANDRA.....	270
Nutritional Determinants of Host Resistance to Parasitic and Viral Infection M.A. BECK AND O.A. LEVANDER.....	271
Vitamin A and Immune Response in Childhood Infections A. COUTSOUDIS.....	274
Nutrition and Immunity in Eating Disorders A. MARCOS.....	276
Nutrition, Immunity and the Elderly J.D. BOGDEN.....	278

## **Nutrition Ecology of Indigenous People**

Dietary Change in the Canadian Western Arctic O. RECEVEUR AND H.V. KUHNLEIN.....	281
Food and Medicine: Adaptation from Natural Resources C.C. SANTOS-ACUIN.....	283
Preventive and Therapeutic Potential of the Australian Aboriginal Hunter Gatherer Diet K. O'DEA.....	285
Seasonal Variations in Food Intake in Cameroon I. DE GARINE.....	287

## **Food Safety**

Upper Safe Reference Levels for Nutrients S.A. MILLER AND I.C. MUNRO.....	290
Assessment of the Allergenicity of Genetically Modified Foods S.L. TAYLOR.....	292
Mycotoxins J.D. MILLER.....	294
Carcinogens and Anticarcinogens in the Human Diet: The USA National Academy of Science Report DIANE F. BIRT.....	298

## **Food Data Systems**

Food Composition and Food Trade: A View of Today and Tomorrow S.S. HARRIS.....	301
Food Nomenclature, Terminology: Standards and Harmonization for Food Composition Databases and Food Trade B.A. BURLINGAME.....	304
Progress in Food Composition Training J.M. HOLDEN AND C. WEST.....	308
Progress in Analytical Quality Control for Food Composition Work: Assuring Quality of Analytical Data P. FINGLAS.....	310

## **Amino Acids: Physiological and Clinical Significance**

Glutamine Metabolism in Health and Disease M. WATFORD.....	312
Hepatic Amino Acid Metabolism A.J. MEIJER AND L. BOON.....	315
Essential Amino Acid Biosynthesis in Mammalian Cells W.D. REES AND S.M. HAY.....	317
Efficacy of Amino Acids and Synthetic Dipeptides for the Treatment of Clinical Disorders P. FÜRST.....	320

<b>Genetics, Nutrition, Physical Activity and Chronic Disease</b>	
Getting the Most Out of Some Very Old Genes JAMES V. NEEL.....	323
Evolutionary Aspects of Diet: The Diet of Evolutionary Adaptedness S.B. EATON AND S.B. EATON III.....	326
Individuality and Nutritional Disease BARTON CHILDS.....	329
Evolutionary Aspects of Exercise J. D. CHEN.....	332
<b>Nutrition Surveillance: Using Data for Policy and Programs</b>	
Poverty Alleviation and Basic Minimum Needs in Thailand K. TONTISIRIN.....	335
Food and Nutrition Policies in China - Using Nutrition Surveillance Data C.M. CHEN.....	338
The Special Supplemental Food Program for Women, Infants and Children: Influence of Monitoring and Evaluation E. KENNEDY.....	342
<b>Nutrition and Acquired Immunity Deficiency Syndrome</b>	
Management of HIV Wasting J.-C. MELCHIOR.....	346
Micronutrients and the Pathogenesis of Human Immunodeficiency Virus Infection R.D. SEMBA.....	349
Hypogonadism: Its Role in Aids Wasting Syndrome J. FALUTZ.....	352
Pathogenesis of Malnutrition in HIV Infection D.P. KOTLER.....	355
<b>Role of Industry in Satisfying Food Security</b>	
The Contribution of Modeling in the Evaluation of Microbial Risk in Food L. ROSSO.....	359
Nutritional Safety O. KORVER.....	362
Processed Food and Health R. STALDER.....	364
<b>Author Index</b> .....	368
<b>Keyword Index</b> .....	370
